

Price of Sealed Tray Cable Trays

Article Overview

Sealed cable trays typically range from £20 to £150 per meter, depending on material, size, and load capacity.

Pricing Overview

The cost of sealed cable trays varies widely based on material, dimensions, and duty rating:

- **Material:** Stainless steel trays are the most expensive due to corrosion resistance and durability, often costing £80–£150 per meter. Hot-dip galvanized steel trays are moderately priced at £40–£100 per meter, while PVC or plastic trays are the most affordable, around £20–£50 per meter .
- **Size and Load Capacity:** Wider trays (up to 600mm) or heavy-duty trays designed for industrial power cables cost more than narrow or light-duty trays .
- **Accessories:** Sealed trays require lids, couplers, bends, and risers, which can add £5–£30 per component depending on size and material .

Factors Affecting Cost

- **Sealing Type:** Fully enclosed or semi-enclosed trays with lids are more expensive than open trays due to additional material and manufacturing complexity .
- **Standards Compliance:** Trays meeting DIN EN 61537 or other international standards may carry a premium .
- **Supplier and Delivery:** UK suppliers like RS Components, CMW, and Direct Channel offer next-day delivery and bulk discounts, which can influence the final price
