

Price of Vertical Trapezoidal Cable Tray Support

Article Overview

Vertical and trapezoidal cable trays typically range from \$20 to \$150 per 2.4-meter section, depending on material, design, and load capacity.

Overview

Cable trays are open support systems used to organize and route electrical cables safely and efficiently. Vertical cable trays are designed for routing cables along walls or vertical structures, while trapezoidal cable trays feature a sloped or angled design to accommodate specific installation requirements or heavy cable loads . Both types are available in materials such as hot-dip galvanized steel, stainless steel, aluminum, and halogen-free plastics, which influence the price .

Typical Pricing

- **Standard Length:** Most cable trays are sold in 2.4-meter sections, which is a common industry standard .
- **Vertical Cable Trays:** Prices generally range from \$25 to \$120 per section, depending on material and load rating. Galvanized steel versions are usually on the lower end, while stainless steel or heavy-duty trays are more expensive .
- **Trapezoidal Cable Trays:** These are often used for heavier or specialized installations. Prices typically range from \$40 to \$150 per section, with higher costs for corrosion-resistant or custom-fabricated designs .
- **Fittings and Accessories:** Elbows, tees, and junctions are priced per piece, usually...
