

Price of a complete set of circuit breakers for a distribution box

Article Overview

Standard 1-pole or 2-pole circuit breakers typically cost between \$10 and \$60, with installation labor ranging from \$75 to \$200.

Typical Costs

For residential distribution boxes, standard circuit breakers are generally priced as follows:

- 1-pole or 2-pole breakers: \$10-\$60 per unit, depending on amperage and brand (e.g., Square D, Siemens, Eaton) .
- Advanced breakers (AFCI/GFCI): \$50-\$150 per unit, offering additional protection features .
- Main breakers or high-amperage units: \$150-\$800, with premium 200A mains potentially exceeding \$1,000 including permits and installation . Labor costs for installation or replacement typically range from \$75 to \$200, influenced by panel accessibility, wiring condition, and local labor rates .

Factors Affecting Price

- Breaker Type: Standard breakers are cheaper, while AFCI/GFCI or smart breakers cost more due to added safety features .
- Amperage: Higher amperage breakers (e.g., 50A, 100A, 200A) are more expensive .
- Panel Compatibility: Matching the breaker to the panel manufacturer avoids compatibility issues and may affect cost
