

Price of cable tray safety supports

Article Overview

Safety cable tray supports range in price depending on type, material, and supplier, typically from \$10 to \$150 per unit for standard supports.

Overview of Cable Tray Supports

Cable tray supports are brackets or hangers used to secure cable trays at various points of installation, ensuring safe and organized routing of electrical cables. They are essential in commercial, industrial, and data center environments to prevent sagging, entanglement, and tripping hazards . Common types include:

- Hanging clamps: Attach to the sides of trays and suspend them from threaded rods. Prices typically start around \$10-\$25 per clamp .
- Hanging bars: Slotted strut channels that support trays horizontally from overhead structures. These can range from \$50-\$150 depending on length and material .
- Hanging clips: Lightweight options for smaller trays, compatible with 1/4", 3/8", or 1/2" threaded rods, usually priced \$8-\$20 each .
- Bracket supports: Wall-mounted or ceiling-mounted brackets for fixed tray runs, generally \$20-\$80 depending on load capacity and material .

Material and Duty Considerations

- Zinc-plated steel: Offers good corrosion resistance and is common for indoor installations .
- Stainless steel: Preferred for high-corrosion environments, slightly higher in cost.
- Heavy-duty, medium-duty, and light-duty: Pricing varies with load capacity; heavy...
