

Price of galvanized cable trays in South Africa

Article Overview

Galvanized cable trays in South Africa typically range from approximately ZAR 200 to ZAR 1,200 per meter, depending on type, size, and finish.

Price Overview

The cost of galvanized cable trays varies based on several factors:

- Type of galvanization:
 - Pre-galvanised (light-duty) trays are generally cheaper, suitable for mild corrosion environments, and typically cost around ZAR 200-500 per meter .
 - Hot-dip galvanised (medium to heavy-duty) trays offer higher corrosion resistance and durability, with prices ranging from ZAR 600-1,200 per meter .
- Tray design and size:
 - Perforated trays and wire mesh trays are usually less expensive than solid or ladder-style trays.
 - Wider trays or those designed for heavy cable loads cost more due to increased material usage and structural strength requirements.
- Supplier and location:
 - Major suppliers in South Africa include Advanced Strut, The Cable Manager, Liteglo, and RS Components . Prices may vary slightly between Johannesburg, Cape Town, Durban, and other regions due to shipping and local demand....
