

Price of pull-out network cabinets

Article Overview

Pull-out network cabinets typically range from \$100 for basic wall-mounted units to over \$700 for larger floor-standing models with enhanced features.

Price Ranges

- **Wall-Mounted Cabinets:** Small units (6U) start around \$100, while more feature-rich models with glass doors or swing-out designs cost approximately \$260. These are ideal for home offices, small retail stores, or satellite offices and save floor space while providing secure storage for networking equipment .
- **Floor-Standing Cabinets:** Larger cabinets (12U to 27U) range from \$300 to \$800, offering better ventilation, easier access, and mobility with casters. A 12U vented door model costs about \$336, while a 27U unit with casters can reach \$719 .
- **Specialized or Outdoor Cabinets:** Prices can exceed \$3,000 depending on weatherproofing, materials, and additional security features .

Factors Affecting Price

- **Material and Build Quality:** Cabinets made from cold-rolled steel or ST12 steel with powder coating are more durable and secure, which increases cost .
- **Size and Capacity:** Larger cabinets with higher U ratings (rack units) cost more due to increased material and space for equipment .
- **Features:** Swing-out or pull-out designs, tempered glass doors, vented panels, and lockable enclosures add to the price .
- **Accessories:** Cable management, shelves, and mounting hardware can increase the overall cost. Some cabinets come fully loaded with accessories, while others require separate purchases
