

Price of wall-mounted distribution box for computer room

Article Overview

Wall-mounted distribution boxes for computer rooms typically start at around \$0.13 for basic models, with prices increasing based on size, material, and features.

Wall-mounted distribution boxes, also called electrical enclosures or junction boxes, are designed to protect and manage electrical wiring and network equipment in computer rooms, server closets, or industrial settings . Prices vary widely depending on material, size, number of circuits, IP rating, and additional features. Plastic boxes, which are corrosion-resistant and non-conductive, are generally less expensive, while metal boxes made of steel or aluminum offer enhanced durability and grounding capabilities, often costing more . Pricing examples and ranges:

- Basic small plastic boxes: starting from about \$0.13 per unit for simple FTTH/FTTX splice termination boxes .
 - Mid-range wall-mount network cabinets: typically \$50-\$200, offering features like adjustable rails, ventilation, and cable management (available on Amazon and Newegg), .
 - High-end metal wall-mount cabinets: \$200-\$500 or more, providing advanced thermal management, security features, and support for multiple servers or switches (Chatsworth Products), .
- Key factors affecting price:
- Material: Plastic vs. metal (steel or aluminum)
 - IP rating: Higher ratings (e.g., IP66) for dust and water resistance increase cost
 - Size and capacity: Larger boxes with more circuits or U-space for servers cost more
 - Additional features: Fan kits, swing-out doors, lockable panels, and modular design...
