

Price quote for 24-core optical cable

Article Overview

The price of a 24-core fiber optic cable varies widely, typically ranging from \$1 to \$5 per meter depending on fiber type, construction, and application.

Pricing Overview

The cost of a 24-core fiber optic cable is influenced by several factors:

- **Fiber Type:** Single-mode fibers (SMF) are generally more expensive than multimode fibers (MMF) due to their long-distance transmission capabilities and precision manufacturing requirements .
- **Cable Construction:** Loose-tube cables, armored cables, and ADSS (All-Dielectric Self-Supporting) cables designed for outdoor or aerial use are more costly than tight-buffered indoor cables .
- **Application:** Outdoor, rodent-resistant, or high-voltage line-compatible cables (like ADSS) command higher prices due to enhanced mechanical strength, water-blocking compounds, and dielectric insulation .

Supplier Examples

- OWIRE Solutions provides 24-core cables with pricing per meter that varies based on single-mode or multimode and indoor/outdoor construction .
- Mouser Electronics lists 24-fiber optic cables with inventory and datasheets, allowing buyers to compare prices and specifications .
- Alibaba offers a range of 24-core fiber optic cables for different applications, emphasizing durability and high-quality performance
