

Quality of Relay Protection Testers in Malaysia

Article Overview

Malaysia offers high-quality relay protection testing services, supported by certified companies, advanced equipment, and adherence to international standards.

Leading Service Providers

PQE Power System Sdn Bhd is a Class A contractor registered with Suruhanjaya Tenaga, providing protection relay calibration up to 500 kV. They follow NFPA 70B 2016 guidelines for periodic testing and offer acceptance, commissioning, and maintenance testing, ensuring reliable performance for industrial and utility applications in Selangor, Kuala Lumpur, and Petaling Jaya . Simpro Engineering Sdn Bhd is ISO 9001:2015 certified and specializes in power system protection, monitoring, and SCADA integration. They distribute high-performance relays from SEL, Doble, Morgan Schaffer, Techimp, and Ametek, ensuring robust protection and minimal downtime. Their services include advanced diagnostics and condition monitoring for medium- and high-voltage equipment . One Alpha Group provides protection relay calibration across Johor Bahru, Penang, and Kuala Lumpur, with qualified engineers performing testing every two years as required by law. Their services focus on earth fault and over-current relays to ensure safety and compliance . BPE Energy emphasizes preventive and corrective maintenance for protective devices, including relay calibration and circuit breaker servicing. Regular testing by competent personnel ensures long-term reliability and prevents false tripping or non-tripping events
