

Rack-mounted intelligent power distribution cabinet manufacturer

Article Overview

Leading manufacturers of rack-mounted intelligent PDUs include Schneider Electric, nVent, Raritan, Delta Electronics, Rittal, and Mitsubishi Electric.

Key Manufacturers and Offerings

Schneider Electric provides rack PDUs designed for high-density data centers, offering intelligent features such as energy monitoring, outlet-level control, and remote access to optimize power usage and ensure reliable delivery to IT equipment . nVent offers RackPower Intelligent Power Distribution Units, suitable for cabinets, open-frame racks, and wall-mount enclosures. Their PDUs can be customized to specific configurations, providing flexibility for diverse IT setups . Raritan manufactures intelligent PDUs like the PX and PX4 series, which include inlet, outlet, and branch-level metering, environmental monitoring, and advanced features such as harmonics monitoring and high-density outlet technology (HDOT) for maximum rack efficiency . Delta Electronics focuses on energy-efficient, space-saving PDUs with strong power protection and monitoring, adaptable to future data center reconfigurations . Rittal supplies intelligent PDUs integrated with their enclosure systems, emphasizing reliability, security, and simplified selection for industrial and IT applications . Mitsubishi Electric offers versatile PDU solutions as part of their IT cooling and hybrid systems, ensuring complete infrastructure support for data centers .

Considerations for Selection...
