

Relay Protection Products Company

Article Overview

Leading relay protection brands include ABB, Schneider Electric, Siemens, GE, SEL, Rockwell Automation, and Mitsubishi Electric, among others.

Top Global Protective Relay Manufacturers

ABB Ltd. – Known for a wide range of protection relays for energy distribution, ABB focuses on smart, eco-efficient solutions suitable for both traditional and renewable energy markets, including digital relays with advanced fault detection and self-healing capabilities . Schneider Electric – Offers advanced protection relay systems integrated with IoT and EcoStruxure platforms, covering 1-52 kV ranges. Their relays are widely used in motor control, industrial automation, and utility applications . Siemens AG – Provides robust protection relays, including the SIPROTEC 5 series, supporting modular configurations from overcurrent to complex busbar differential schemes. Siemens emphasizes IEC 61850 protocol compliance and process-bus applications . GE Grid Solutions – The Multilin 8 Series and Universal Relay platforms are designed for complex protection schemes, including synchrophasor measurement integration for wide-area protection. GE relays are widely used in North American utilities and high-voltage transmission . SEL (Schweitzer Engineering Laboratories) – Specializes in highly reliable microprocessor-based relays for feeders, transformers, and industrial grids. SEL products, such as the SEL-751 and SEL-487E, are known for protection security and dependability . Rockwell Automation – Focuses on industrial-grade relays, particularly for motor protection and integration with Allen-Bradley ecosystems. Their relays provide predictive maintenance analytics and IIoT readiness . Mitsubishi Electric Corporation – Offers protection relays for industrial and utility applications, emphasizing operational efficiency and safety across various voltage l...

Article Content

Protection Relays | Feeder Protection Relay

Schneider Electric India. Discover a range of products in protection relays and feeder protection relays :Easergy P3, Easergy P5,

Protective Relays: Overcurrent and Safety Relays | TE Connectivity

TE offers types of protective relays from overcurrent relays to safety relays that trips a circuit breaker when a fault is detected such

Protection Relays | Medium & high voltage power system protection

Discover protection relays for generators, motors, transformers, feeders and busbars, designed for reliable and efficient power

Schweitzer Engineering Laboratories

SEL provides complete power system protection, control, monitoring, automation, and integration for utilities and industries

Multiapplication protection and control

Multiapplication protection and control Freely configurable all-in-one protection devices represent a flexible and cost-effective choice.

Top Companies in Protective Relay Industry

The research insight on Top Companies in Protective Relay Industry highlights the prominent players in the market. Get known &

Digital Protection Relays | ABB Electrification U.S.

Relion Protection & Control Offering the widest range of products for the protection, control, measurement and supervision of power

Contactors & Protection Relays

Protect your equipment from power faults with electrical contactors and relays from Schneider Electric, available for NEMA and IEC

Primary Protection Relays | ABB

ABB's Relion family of protection and control relays for primary distribution offers a wide range of products for protection, control,

Protection, Control & Metering

GE Vernova's Protection, Control, and Metering solutions deliver precise, high-performance automation for today's evolving grid.

Protective Relays

Protect critical components in your power system with a wide range of SEL protective relays covering applications and use cases

Top 10 Companies Shaping the Future of Protective Relay Market

Discover the top 10 companies driving the protective relay market. Learn about key trends, innovations, and global market outlook

44 Protective Relay Manufacturers in 2026

44 Protective Relay Manufacturers in 2026 This section provides an overview for protective relays as well as their applications and

Primary Protection Relays | ABB

The main purpose of a protection and control relay is to recognize any abnormal power system condition(s), or abnormally operating

SIPROTEC Protection Relays | Siemens

From multiple engineering tools for protection to configuration software, power quality measurement solutions and protection relays

ERLPhase Power Technologies Ltd.

ERLPhase Power Technologies is a ISO 9001:2015 manufacturer of digital protection relays and power system recorders with a
