

# Residential Low-Voltage Distribution Box Quotation

## Article Overview

Residential low-voltage distribution boxes typically range from \$100 to \$800 depending on specifications, installation requirements, and features.

### Pricing Overview

The cost of a residential low-voltage distribution box depends on several factors including voltage rating, amperage capacity, number of circuits, material construction, and integrated safety features. Standard indoor single-phase units for homes generally start around \$100-\$300, while more advanced or outdoor-rated units with weather-resistant enclosures, surge protection, and smart monitoring can range from \$400-\$800 or more . Installation costs, which include labor and compliance with local electrical codes, may add to the total investment.

### Product Options

- Indoor Cabinets: Multi-service distribution boards (MSDB) and sub-main distribution boards designed for easy installation, space efficiency, and long-term reliability .
- Outdoor Cabinets: Weather-resistant low-voltage cabinets suitable for wall or pole mounting, constructed from impact-resistant materials with enhanced operator protection .
- Accessories: Fuse units, terminal blocks, CT metering chambers, and AcuLok fuse handle systems for secure and safe operation ....
