

South Sudan Ladder Cable Tray Price Inquiry

Article Overview

Ladder cable tray prices in South Sudan typically vary based on material, size, and load capacity, with steel and aluminum options ranging from approximately USD 20 to USD 150 per meter depending on specifications.

Price Overview

Ladder cable trays are designed with parallel rails connected by rungs, providing an open structure for excellent ventilation and easy cable access. Prices depend on material, dimensions, load capacity, and manufacturing specifications. Common materials include:

- Steel (galvanized or powder-coated): Strong and durable, suitable for heavy-duty applications, typically priced higher due to load capacity and corrosion resistance.
- Aluminum: Lightweight and corrosion-resistant, ideal for installations where weight is a concern.
- Fiberglass: Non-conductive, used in environments requiring electrical insulation. For industrial and commercial projects, steel ladder trays can range from USD 50 to USD 150 per meter, while aluminum trays may cost USD 40 to USD 120 per meter, depending on thickness, width, and finish. Smaller or lighter-duty trays may start around USD 20-30 per meter .
