

Southern European Secondary Distribution Box Manufacturer

Article Overview

Key manufacturers in Southern Europe include Delvalle Box (Spain) and Carta (Italy), offering customized secondary distribution panels and electrical enclosures.

Delvalle Box – Spain

Delvalle Box is a leading European manufacturer of high-resistance electrical enclosures and secondary distribution solutions, with over 50 years of experience in industrial applications . Their products are customizable, designed to meet specific project requirements, and built for durability, safety, and reliable performance. Delvalle provides consulting and engineering services, ensuring that each enclosure or panel is fully integrated with necessary components. They manufacture both single prototypes and large industrial series, maintaining strict quality control throughout production .

Carta – Italy

Carta specializes in secondary distribution panels for energy distribution, producing hundreds of units annually . Their panels can be made from plastic or metallic enclosures and are typically equipped with molded case circuit breakers and modular devices. Carta's panels are designed for floor or wall installation, depending on the number of switches and distributed power. They focus on terminal panels for the last distribution level, including light control and industrial utility connections, with modular devices for flexibility

Article Content

Distribution boxes

Solid rubber (construction) distribution box suitable for construction and industry according to EN-61439-4. KEMA/DEKRA approved.

Distribution Boxes |

The BAU series power distribution boxes are manufactured in various variants, making them an ideal solution for use on construction
