

Swiss fiber optic sensor manufacturer

Article Overview

Leading Swiss manufacturers of fiber optic sensor equipment include FiSens GmbH, Marmota Engineering AG, and SwissOptic AG, each offering specialized solutions for industrial, geotechnical, and optical applications.

FiSens GmbH

FiSens GmbH develops and manufactures fiber Bragg grating (FBG) sensor arrays and fiber-integrated spectrometers. Their sensors are designed for high multiplexing capability and maintain mechanical and signal integrity in harsh environments. FiSens products are used in applications ranging from structural health monitoring of bridges to smart fan blades and medical instruments. The company emphasizes compact, precise, and reliable FBG hardware and has recently merged with 5Io.Tech, enhancing its strategic capabilities in fiber optic sensing technology (FiSens GmbH) .

Marmota Engineering AG

Marmota Engineering AG focuses on fiber-optic sensing solutions for geotechnical applications. The company provides high-quality sensors for monitoring soil, rock, and structural conditions, leveraging a team of highly qualified engineers to deliver innovative solutions for civil engineering and infrastructure projects (Marmota Engineering AG) .

SwissOptic AG

SwissOptic AG specializes in integrated optical systems, combining optics, mechani...
