

West Africa Fiber Optic Splice Box Manufacturer

Article Overview

FibreAid and Decko Africa are key suppliers of fiber optic splice boxes and related solutions in West Africa, offering both products and installation services.

Key Manufacturers and Suppliers

FibreAid is a prominent provider of fiber optic solutions across Africa, including West Africa. They offer a wide range of splice boxes, splicing tools, testing kits, and accessories tailored for FTTx networks. Their products include high-quality fiber optic cables, OTDRs, and 8-core splice cassettes, suitable for both indoor and outdoor installations. FibreAid also provides training and technical support for network deployment, ensuring proper installation and maintenance of splice boxes in diverse environments . Decko Africa specializes in end-to-end fiber optic services, including cable installation, splicing, and system support. They provide solutions for FTTB, FTTH, FTTD, and FTTS networks. Decko's teams handle route surveys, duct laying, manhole assembly, and splicing, ensuring that fiber splice boxes are correctly installed and maintained. Their experience includes large-scale projects like the National Optical Fibre Backbone Infrastructure (NOFBI), demonstrating their capability to support West African telecom projects . RJ Connect manufactures the FIMP-XL splice box, which comes pre-equipped with splice trays, couplings, pigtails, and cable glands. The FIMP-XL supports multiple connector types (SMA, ST, SC, LC, FC-PC, SC-RJ, E-2000) and offers flexible mounting options, including DIN rail and wall fastening. This modular design allows customization for specific project requirements, making it suitable for West African deployments . Cable Applications offers fiber splice boxes...
