

Western European Construction Site Electrical Distribution Box Manufacturer

Article Overview

Leading manufacturers in Western Europe include Wieland Electric, Elektra Tailfingen, and numerous German producers offering flexible, mobile, and IEC-compliant distribution boxes.

Key Manufacturers and Solutions

Wieland Electric (Germany) Wieland Electric specializes in smart, pluggable, and decentralized electrical distribution boxes suitable for construction sites and temporary installations. Their products support power, signal, and I&C applications, with options for temporary power distribution using WIV exhibition boxes. These boxes are highly flexible, mobile, and can be configured with gesis® MINI, gesis® CLASSIC, or RST® CLASSIC connector systems depending on IP protection requirements. They comply with IEC 61439 and IEC 61535, ensuring safe and standardized installation. Wieland also offers multifunction meters for energy monitoring and easy extension of circuits . Elektra Tailfingen (Germany) Elektra provides construction site current distributors with robust plastic housings, cross-divided inlet/outlet openings, and folding strain relief clamps for fast and safe connections. Their designs allow up to 50% faster connection times, with accessible fuses and meters protected by flip-up covers. These distributors are suitable for harsh environments and high-demand construction applications . Other German Manufacturers Directories such as Europages list numerous German companies producing electrical distribution boxes for industrial and construction use. Notable suppliers include:...
