

Where to buy cheap fiber optic fusion splicers

Article Overview

Budget-friendly fiber optic fusion splicers like the KOMSHINE FX39 and EX39 Mini offer reliable splicing for FTTH and telecom applications without breaking the bank.

Affordable Options

- KOMSHINE FX39 6-Motor Fusion Splicer – A cost-effective splicer suitable for FTTH installations, offering fast splice times, decent battery life, and basic core alignment features for single-mode and multimode fibers .
- KOMSHINE EX39 Mini – Compact and portable, ideal for technicians needing a lightweight, budget-friendly splicer for fieldwork .
- Entry-Level Models on Amazon and eBay – Platforms like Amazon and eBay list fusion splicers under \$1,000, often including cleavers, carrying cases, and spare electrodes . These are suitable for small-scale projects or training purposes.

Key Features to Consider

- Core Alignment Type: Even budget splicers may offer basic core alignment, which improves splice quality.
- Splice Speed: Look for models with fast splice times (typically 7–15 seconds per splice) to improve efficiency.
- Battery Life: Essential for fieldwork; many budget splicers provide 100–200 splices per charge.
- Accessories: Check if the splicer comes with cleavers, fiber holders, and protective cases to avoid extra costs....
