

Zimbabwe replaces electrical distribution boxes

Overview

THE Zimbabwe Electricity Transmission and Distribution Company (ZETDC) has embarked on an infrastructure upgrade and equipment acquisition drive estimated to cost about US\$86 million, to modernise the national power transmission system and improve response times to faults. Local distribution systems delivering power to end. Private entities in Zimbabwe will soon be permitted to generate, distribute, and transmit electricity to households, particularly in newly established suburban areas across the country, a senior government official has said. These entities will operate as electricity retailers within designated. Mutapa Investment Fund (MIF) has initiated the process of rebundling ZESA Holdings, aiming to streamline operations, enhance efficiency, and reduce costs within Zimbabwe's struggling electricity sector, MIF CEO Dr John Mangudya has confirmed. Want to read. The ZETDC recently announced plans to conduct inspections for household, commercial and industrial electrical installations.
